

# Team Contract

**Code:** Joshua Bonilla

**Tech:** Hanniee Tran

**Art:** Kaylie White

If any problem should arise with a team member, the group will first attempt to resolve the issue internally by communicating with one another. If a solution cannot be reached or the problem persists, the professor will be contacted. Only an extreme circumstance, such as failing to provide any contribution to the project, will result in the team member being fired from the group.
